BSc Computer Science with AI student at Queen Mary University of London, graduating June 2028, with experience in Python, Java and TypeScript. Built a suicide chess engine that solves the game with alpha-beta search, and designed and tested Sonar Reps, a second-place hackathon project.

EDUCATION

BSc Computer Science and Artificial Intelligence 2025 – Expected June 2028
Queen Mary University of London *London*

A levels (AAAB) 2023 – 2025
Christleton High School *Chester*

- Mathematics, Economics, Computer Science, plus an EPQ on AI (grade B).

GCSEs 2023 – 2025
Christleton High School *Chester*

- English language 8, Computer science 5, Mathematics 7, Business 8, English literature 5, Media studies 7, History 7, Combined science 7-6.

PROJECTS

Sonar Reps October 2026
Queen Mary CS and AI society hackathon, team of four

- Wrote the design and product specification for an iPhone pushup counter that uses speaker and microphone sonar tracking, with the phone placed under the chest.
- Took a large part in testing: the counter accepted 39 of 40 full pushups and rejected all 15 half reps.
- Placed second at the hackathon.

Anti chess engine
Personal project

- Built an anti-chess engine that solves anti-chess using an alpha-beta search algorithm.
- Searches around 6000 positions per second

EXPERIENCE

Kitchen Assistant April 2024 – August 2026
Riverside Takeaway *Chester*

- Supported day-to-day kitchen operations in a fast-paced takeaway environment.
- Monitored and organised ice cream tub inventory to keep stock available.
- Kept the stock supply organised so service ran without disruption.

Finance Work Experience Student 2022 and 2024
FW Capital *Manchester*

- Shadowed a finance professional to learn their daily responsibilities, workflows and the business operations around them.
- Observed how finance staff plan their workload and make decisions in a commercial environment.

SKILLS

Languages: Python, Java, TypeScript, JavaScript, PHP, HTML, CSS
Libraries and runtimes: React, Node.js, NumPy

CERTIFICATES

Second place, hackathon 2026
Queen Mary CS and AI society
